PROJECTS

Britannia - Clone Website

Technologies - HTML & CSS

The 'Britannia Clone' project represents a meticulously crafted homage to the renowned Britannia website, developed entirely using HTML and CSS. This project mirrors the aesthetic and functionality of the original platform, showcasing adept utilization of front-end web development technologies.

University Website

Technology - Bootstrap

Our university website, crafted with cutting-edge Bootstrap technology, embodies our commitment to modernity and accessibility. Through the responsive design and sleek interface provided by Bootstrap, we aim to offer a seamless browsing experience across devices for our diverse community of students, faculty, and visitors.

Tea Time E-Commerce Website

Technologies - HTML, CSS & Javascript

The 'Tea-Time Ecommerce' project is a finely crafted online platform meticulously developed with HTML, CSS, and JavaScript, offering a delightful and seamless shopping experience tailored specifically for tea aficionados worldwide. Art of creating an immersive digital marketplace, inviting tea enthusiasts to explore, indulge, and shop for their favorite teas and accessories within a user-friendly and visually captivating online space.
